

UPLOADING WORK ON FROG

Your teachers may be setting you assignments on frog which allow you to upload your work to send to them.

You can add any files, pictures, video etc.

When you open the assignment, if your teacher wants you to upload work you will see a box like the one below:

The screenshot displays the Frog assignment submission interface. At the top, it shows the lesson title "LESSON - Wednesday 27th January Period 2" and the subject "Mathematics / Miss V Freer". Below this, there are two date fields: "Issue Date: 27/01/2021" and "Due Date: 03/02/2021". A status indicator shows "0/1" and "Not Handed In". The main content area lists two items: "WORKSHEET G_1" and "LESSON - Percentages_1". Below these is a "SUBMIT WORK HERE" section with an "Uploads" header and a message "No files currently in the file drop". At the bottom right of this section, there is an "Upload" button with a red box around it and a red arrow pointing to it, and a "FrogDrive" button next to it.

Click on the **UPLOAD** button, and then **CHOOSE FILES** on the next box to add your file to the assignment for your teacher to see – its that easy!
