Our vision for education is about more than just passing examinations. Our pupils are exposed to diverse and distinctive experiences through a range of curricular and co-curricular activities which help to develop lifelong interests. The academy offers a wide range of opportunities for pupils to participate in educational visits, trips, sporting fixtures, industrial visits, fieldwork, conservation and international visits. In many instances the academy subsidises such experiences. Macmillan Academy was the first school in the UK to be awarded the Learning Outside the Classroom Gold Mark for its work in this area.
